

BEI Mobile App Monthly Maintenance

Name: Stephen Lorenz

Date: Jan 3, 2022

The BEI Mobile application servers run on Ubuntu 20.04.3 LTS hosted on AWS EC2 instances. Once a month the following tasks will be performed to the three BEI instances. These instances include:

Name	Description	Instance ID	Public IP address
beiapp-staging-ec1	Staging server	i-0afed8a389548cc63	3.21.92.194
beiapp-prod-ecv1	Prod server 1	i-03b308fc318ec204c	52.14.3.193
beiapp-prod-ecv2	Prod server 2	i-0179464648da173a3	3.138.143.38

Data, Software, Security and System checks
